

# INVESTIGATOR QUALIFICATIONS

**Description**

**Who Qualifies as a Principal Investigator?**

A Principal Investigator (PI) must be faculty or have a faculty sponsor in order to submit to the University of Utah IRB. Detailed information can be found by referring to the webpage [“Who Can Submit an Application to the IRB?”](#) on the IRB website.

The PI of the research study is ultimately responsible for assuring compliance with applicable University of Utah IRB policies and procedures, DHHS Federal Policy regulations, and FDA regulations; and for oversight of the conduct of the research study and the informed consent process. The PI agrees to the general responsibilities of study investigators in the Statement of Assurance when submitting new study applications (please see the IRB page “Who Can Submit an Application to the IRB?” for the list of PI responsibilities).

*Points to Consider When Designating a PI for a Study:*

- Does the PI have the appropriate qualifications, experience, and facilities available to ensure that all aspects of the project and follow-up will be conducted rigorously and with due regard for the safety and well-being of the subjects?
- Are adequate procedures in place through which the researcher will monitor the project and report problems to the IRB?
- What is the investigator’s past record with regard to approved research?

**Who Qualifies as an Internal Co-Investigator?**

Internal Co-Investigators are faculty or faculty-appointed individuals who are employed by the University of Utah. Co-Investigators are supervised by the Principal Investigator to perform critical trial-related procedures, and/or to make important trial-related decisions.

Co-Investigators should be able to answer in-depth questions about the study, among which include those concerning hypothesis, scope, methodology, anticipated outcome, and so forth.

**Who Qualifies as an External Co-Investigator?**

External Co-Investigators are faculty or faculty-appointed individuals who are not employed by the University of Utah, but may be responsible for conducting research at other institutions under the supervision of, or in collaboration with the PI.

**Principal Investigator Qualification Chart**

<b>Staff</b>			X
<b>Other</b>			X

\*If students are involved in the study, a faculty member or other individual authorized to supervise graduate students must fulfill the appropriate advising responsibilities. The submitting department is obligated to assure compliance with this policy.

**When is a Faculty Sponsor Required?**

Students or University of Utah staff members who conduct research at the University of Utah must have a faculty sponsor for IRB submission.

By agreeing to act as the faculty sponsor on a research application, the sponsor must agree that the student or guest investigator is knowledgeable about the regulations and policies governing research with human subjects and has sufficient training and experience to conduct this particular study in accord with the approved protocol. In addition, the sponsor agrees:

- to meet with the investigator on a regular basis to monitor study progress;
- to be available, personally, to supervise the investigator in solving problems should they arise during the course of the study; and,
- to notify the IRB of their replacement if they are unable to fulfill their role as faculty sponsor for any reason (e.g. sabbatical, etc.).

**Points to Address**

---

Please contact the IRB Office at (801) 581-3655 or [irb@hsc.utah.edu](mailto:irb@hsc.utah.edu) for additional guidance.

**New Study Application:**

1. **Contacts and Title:** Enter the name of the designated PI for the study by clicking the “Select” button and searching for the individual in the “Select Person” list. If you are unable to search for this individual on the “Select Person” screen, this individual may not be registered in the ERICA system. Please have the investigator register in ERICA by clicking the “ERICA” link on the IRB website, and following the login instructions. If the investigator does not have a University uNID, or needs assistance completing the registration process, please contact the IRB Office at (801) 581-3655. **Please also ensure that all newly-registered investigators have completed Human Subjects Research Training which is acceptable to the University of Utah IRB (see IRB website for more information).**

**Documents and Attachments:**

1. **Current PI Scholarly Record (CV/Resume):** Attach a copy of the Principal Investigator’s (and Faculty Sponsor’s, if applicable) **Curriculum Vitae** (CV), resume, or other documentation that will demonstrate a scholarly record suitable for the study in question.
